## Exterior Trim

**9.** Versatex introduces a time-saving moulding piece for joining long runs of all beaded profiles, especially the popular 4-ft. by 8-ft. and 4-ft. by 10-ft. beaded panels. The new T moulding will be 5/8 in. by 3 in., with a 1/2-in. cutout on each edge, leaving a receiver and cover for the normally exposed 4-ft. edges of joining panels.

**Versatex. Circle 201**
